

The Souvenir Card JOURNAL

FOURTH QUARTER 1998
VOLUME 18
NUMBER 4

THE OFFICIAL PUBLICATION OF THE SOUVENIR CARD COLLECTORS SOCIETY

ON THE COVER: If you have any idea of what this is, please send a note to the editor. I acquired this piece at VAPEX'98 in an auction at the show. The auctioneer had no idea, nor do I. It is printed on what appears to be the same paper used for bank notes, in intaglio and in bank note grey and green. It is not a collage, all the images were printed in one or more passes. Why? For what purpose? And, by whom? Answers invited, especially from someone with a similar piece!

◇

I reproduce two areas of alternative intaglio collecting in this issue: the fifth (1991), and next to last, set of the ABNCo Archive series and some of the IBNS souvenirs. Enjoy!

In this regard, with a dwindling supply of new intaglio souvenir cards, I would ask any and all members to submit clear photocopies of any other items in their collections which might be of interest to fellow members. I plan to look through my ABNCo Annual Report books and give you a taste of other things out there. Unfortunately (or fortunately for my bank account balance) I don't have them all. Do you have anything not previously shown in these pages? A clear photocopy—a Cannon color copier set on black only is the best I've seen—sent flat (no folds please) would be sincerely appreciated. There are many of us who would like to see samples of the engravers art with which we may not be familiar.

◇

I attended the most recent Metro Chapter meeting (MEGA-EVENT, New York, 21 November) and, although I was pleased to see many familiar faces of friends/members, I was surprised that there were not more collectors present. In addition to sharing information, swapping stories and material, attendance got you a free copy of the Metro card issued

for the show (S1998 H). The official meeting was followed by a discussion of an ongoing subject—the numbering of the cards of the National SCCS, and the Chapter One (Washington) and Four (Metro) cards. One idea is to identify them with a specific letter, instead of the all encompassing "S" currently in use. For example, Metro cards might be "M1", "M2", "M3"... , Washington cards might use a "W", and National cards might be prefixed with an "N". This would require some catalog/listing changes, but, in the long run, might make it easier for everyone to identify what they have or need for "completeness." The current system has lead to confusion and, perhaps, discouraged some collectors.

There was, and still is, the matter of the so-called "F" or "Forerunner" cards. A great system to a certain point, but after "normal" cards have been issued by the BEP or the PPU, how can new cards be called "Forerunners"? The problem in all this discussion is how will it affect the membership and how they collect? Are they, i.e., YOU, willing to appreciate and accept any effort to change the "system" for the benefit and understanding of all? I would appreciate hearing from any and all of you on the matter of catalog numbering. In my opinion, they should follow the four "C" ideal: CLEAR—CONCISE—COMPLETE—CORRECT! What do you say?

◇

It may be too late by the time you get this, but I remind you that the BEP cards go off sale at the end of the year and the chance to enter a subscription to their card service also ends with the year end.

◇

Finally, I offer my best wishes to one and all for a Happy Holiday Season and a Healthy and Prosperous New Year! May you joys be souvenir cards!

PRESIDENT'S MESSAGE

Arthur Benjamin (1032)

As we enjoy this wonderful holiday season, I would like to thank those members who work hard for the Society. We could not continue without the efforts of Mike Bean, Bill Kriebel, John Parker, Ken BArr, Dana Marr, Steve Patrick, Ed Kintop, Lee Quast, Robert Hallet, and the entire New York Metro Chapter Board. I am proud to call these people my friends.

There are opportunities for other members to become more involved. A committee from the New York Metro Chapter is addressing the SCCS numbering issues and I want some of our members to try to set up a presence on the Internet. We always need articles [and/or illustrations] for the journal. Please try to help

It is difficult to accept that another year has gone by. It has been a difficult year for the Society as we face the same problems, as most collectible organizations, an aging member base and declining membership. I sleep better at night once I accepted this as "typical" and not an indication of a specific problem with our organization. Our goal is to continue to provide a first class organization in this reduced environment.

As an organization we have instituted several cost-saving measures, including the mailing of the annual card—free, but, only through membership—with the journal. We did it for the first time this year and it proved successful. In addition, those members who do not renew on time will NOT be sent the First Quarter issue. They will be sent a dues reminder and, if they elect to renew, they will be sent the missing issue.

Even with these savings, the SCCS would be running at a deficit. To address this problem, the Board decided to raise the dues modestly. This increase will allow us to continue to publish four issues of the journal plus annual card. Hopefully, the dues increase will sustain us for the foreseeable future. [The increase in postage rates scheduled for January 1999 may not have a serious effect on our costs, but the actual rates, other than first class have not yet been published.]

We have started planning for the year 2000 and we are considering issuing a nationally released card as a fund raiser. We encourage your suggestions on a theme or item that would sell to the general public.

The year 2000 is also the 200th anniversary of the founding of Washington, DC. We expect to have the annual meeting in Washington in conjunction with this theme.

The SCCS will have a table at the FUN show in January, the IMPS in Memphis in June, and the ANA in August. Additional show participation is possible.

In closing, I ask for your continued support for our Society and remind you to pay your dues for 1999 as soon as possible.

Herb Meisels writes: At a meeting at Mega Event in Anaheim, CA, Dicky Rustin, who coordinates USPS at stamp shows announced that the agency will attend the following international shows in 1999: Australia, PhilaFrance, and China. No decision has been made as to souvenir cards, covers and/or special cancels. The USPS was represented at Royal 98, Hamilton, Ontario, Canada, and had a special cancel. No USPS souvenir card was issued, however, the Canadian Bank Note Company (CBNCo) issued a card honoring the Boy & Girl Scouts. Dicky, who coordinated World Stamp Expo 89 and Pacific 97, is already planning for World Stamp Expo 2000 at Anaheim, CA, 7-16 July 2000. The BEP will probably issue a souvenir card as they did for Pacific 97.

◇

Speaking of souvenir cards, **Larry Dodson** advises that he received the following from Kenneth P. Martin of the APS regarding 1997-98 APS cards:

"The 1997 APS Stampshow card is available for \$3.50. As we lost a considerable amount of money on the souvenir card for three years in a row no souvenir card was produced for Stampshow 98 nor are any anticipated for future APS shows."

◇

Richard Moore and **Steve Goceliak** of the Metro Chapter have been working on a mini-catalog of their Chapter cards. The idea is a three-ring, loose-leaf set of sheets which picture all the cards with information on printing, sales, etc., that will be periodically updated. They are also suggesting another numbering system for the cards produced by the Metro and Washington Chapters and the National, all of which are currently listed under an "S" system, which has led to confusion and frustration on the part of many members, and has been the subject of previous articles and members' input. The current suggestion would be to tie the number to the pro-

ducing group, e.g., "M" numbers for Metro cards, "W" numbers for Washington cards, and "N" numbers for National cards. Consequently, if you only collected certain cards, your collection could be "complete" as far as the numbers are concerned.

Catalog numbers are a form of identification and, as a result, communication between individuals and/or groups. They are not magical, and, like the seasons, are subject to change. The change should be a benefit—not something that makes matters worse. Questions have also been raised about the "F" numbering system which is long overdue for review and correction. How can we have a "Forerunner" that is issued after the earliest numbered cards? I would appreciate your comments. As your editor and spokesperson, I would like to find out YOUR OPINION. If the system is to work it has to be of benefit to the majority of those who use it.

Several members have already written asking for a change. What is your opinion?

◇

John Cali has offered the suggestion as to whether or not the SCCS should consider a merger with a similar organization to bolster "strength in numbers" and share similar—although different—interests. Of the groups suggested, those, like myself, who also collect USPS Commemorative Panels (they do contain intaglios, but I have no idea who produces them—they were originally produced by ABNCo), Souvenir Pages, and/or Ceremony Programs. Another group I belong to, the Brazil Philatelic Association (BPA), with even fewer members has maintained its own, but periodically, thoughts are raised about combining our efforts with other Latin or South American collector groups. No action has been taken so far as long as the BPA is well!

MY ONE AND ONLY!

Greg Alexander (304)

This is my one and only error card, which I discovered among a large auction lot that I'd purchased. As you can see in the enlargement, the black plate on the stamps has skewed rather significantly down and to the left. Apparently the stamps were printed in a

separate run from the black text, which lines up with the rest of the card just fine. I'd be interested to know if these cards were printed in sheets of four—if so, there ought to be at least another three similar to this floating around out there. Check your collections!

ASDA 1984 NEW YORK, NEW YORK

The Bureau of Engraving and Printing is especially pleased to issue this souvenir card commemorating the National Postage Stamp Show in New York City, November 15 through 18, 1984.

This card is dedicated to young people everywhere, especially those who participate in Olympic games, the members of Boy and Girl Scout troops, Little League players, and all of the organizations throughout the world that call upon the youth to share with others the joy and challenge of such participation. In recognition of this salute to youth, we have chosen a block of four stamps featuring Tom Sawyer whose travels and adventures came to life for all young people through the writing of Mark Twain. Our featured vignette is a replica of a Mississippi River side-wheeler. The stamps were designed by Bradbury Thompson and were placed on sale on October 13, 1972 in Hannibal, Missouri.

AVING AND PRINTING, WASHINGTON, D.C.

he unauthorized reproduction, in whole or in part, of currency, postage stamps, or other securities of the United States.

Pictured above (enlarged 150%) is a vignette proof I acquired recently. At first I thought it was the same engraving as appears on B 152 [the 1991 Fort Worth Dedication card] and the [1981] "Visitor's Card" (B 52, below, at 150%). But a closer look shows some subtle differences: the roof appears lighter in shade, and the top three front windows on the right and left are barely visible. Also there is no flagpole. I'm guessing that this was the first version produced by the Bureau. The trees are smaller and scruffier than in B 52 and look a few years younger. [At the same enlargement, the buildings are the same size.]

I showed this engraving to my friend [and fellow SCCS member] Paul Melnick and he came up with an illustration (opposite page) of FB 1916A from his collection. It's the cover of a BEP luncheon menu with the "new" and "old" buildings, including the same vignette as above.

[Neither the engraving above or that opposite show the two flag poles which appear in the engraving below. The view is taken from the southwest, across the Tidal Basin to the north of the Jefferson Memorial (see further discussion and photos following. Ed.)

Among my other hobbies, I also collect old postcards and had a couple of the "new" building when it had just been finished in 1914. The first card [top, right] shows it almost exactly like the original engraving. But the other card [bottom, right] shows a flag flying, and a less obvious second flagpole at the far left [north end of the building]. None of the engravings show the prominent smokestack of the old BEP building that sits directly behind the new building.

[I find it interesting to note that the flag and poles seem to have been added (artist's license) and the chimney has been "modified" to conform to the turret-tower of the old building with its conical top! Ed.]

The upper "windows" in this postcard view are more obvious and match the original engraving as well. I don't know why they were darkened on the later vignette—is this how the building looks today?

One added note: the postcards give statistics on the BEP, which then produced "United States gold and silver certificates and National bank notes" with "an average total daily output between six and seven million dollars in value." According to BEP Internet web site, daily production these days is about \$540 million. Of course they now have more facilities.

[After receiving Greg's article and illustrations, I tried to find out more about the facility and the on again, off again flagpoles. My first recourse was to

my copy of the *History of the Bureau of Engraving and Printing: 1862-1962* (Washington, U. S. Government Printing Office, n. d.) which, incidentally contains the same engraving as B52 and B152. It includes (p. 89) a description of the building:

The architectural style of the building is Roman Doric. It is of steel superstructure with concrete fireproofing and is constructed of reinforced concrete faced with Indiana limestone and granite trim. Along its main facade, fronting on 15th Street and overlooking the Tidal Basin, is a series of stone columns spanning the

entire 305-foot length of the building. Four factory wings extend a distance of 296 feet back toward 14th street. In all, the structure contains approximately 10 acres of floorspace. It is 105 feet in height and comprises a basement, four stories and an attic. It cost \$2,882,000.

The article shows a photograph (right) of Howard Ralph, son of the Director, Joseph Ralph, raising the flag on the north end on 19 March 1914. The other boy in the photograph, Frank Ferguson, was the son of Assistant Director Frank E. Ferguson, and had the honor of raising the flag at the south end.

The BEP history, however, makes no mention of the building's architect. A search of the 1913 and 1914 Indexes of *The New York Times* and of my own architectural library provided almost nothing, until I found a photographic volume, *Washington, D. C., Then and Now*, by Charles Suddarth Kelly (New York, Dover, 1984) which is still in print. Still no architect, but two bird's eye views (below—portions enlarged—taken from the Washington Monument in ca. 1917, left, and 1980, right) seem to deny the flagpoles. Are they removable? Were they "removed" from the photos? There is evidence of the hatches (?) that provided access (?).

The mystery continues! In the same Dover book (p. 146), yet another photo (top, next page), taken in 1922 from almost the same point of view as the

engraving (at ground, eye-level), shows "a bevy of beauties frolics on the future site of the Jefferson Memorial." The author describes the BEP building in the background as "Classic Revival." The flagpoles and a portion of the old smokestack have "vanished," possibly as a result of the resolution of the early photos. However, the book also includes a 1980 "now" photograph which shows no evidence of the flagpoles. What is the story? Frankly, I don't know.

Finally, I came across an undated BEP brochure in my own files, entitled "Production of Government Securities." On the cover (shown at right, 150%) is yet another view. The first assumption is the "same old view," but lo, the windows in the attic are in, and the foreground trees almost obscure the lowest floor. Look back at the "bevy of beauties" photo, did the photographer "add" more formidable trees to "enhance" the foreground or have the trees been replaced over time?

14th and C Streets, SW.
Washington, D.C. 20228

So the questions remain:

- Who was the architect for the structure and why has he/she been denied any recognition?
- Are there flagpoles on the north and south ends of the west front?
- If so, are they removable?
- If so, why?
- When was Greg's new acquisition made, and are there others out there?

Comments from the membership, including those who reside/work in this place, are earnestly invited. Ed.]

Articles in the Fourth Quarter 1996 [SCJ 16:4, pp. 5-9] and the First Quarter 1997 [SCJ 17:1, pp. 5-9] describe a number of cards related to Disney. The ASDA has also issued some Disney souvenir cards. They are printed on white stock and measure 7.5" x 6".

(reduced) three USPS issues: film maker, D. W. Griffith (Scott No. 1555), Walt Disney (Scott No. 1355), and the 50th Anniversary of Talking Pictures (Scott No. 1727). Disney is not mentioned in the text of the card, although Griffith is.

Issued in August 1983, a card (below, SCCS No. ASDA 59) features the theme of Hollywood, Los Angeles, "A Land of Make Believe," and reproduces

HOLLYWOOD - LOS ANGELES A LAND OF MAKE BELIEVE

Mention the state of California and two subjects spring to mind - Gold and Hollywood. While gold continues to trickle forth, Hollywood pours forth a torrent of pleasure through the production of motion pictures.

David Wak Griffith (1874-1948) was one of the first great motion picture producer-directors. His impact upon the movie industry has left a heritage for all the world to enjoy.

The original Hollywoodland sign, now Hollywood, proclaims to all who come to movieland; there really is a land of make believe.

The "STARS" have radiated their own particular glow upon Los Angeles, upon Hollywood, upon a world audience delighted by the talents presented to them.

Rather prestigious star-gazing occurs annually during the ceremonies of the Academy of Motion Picture Arts and Science, and the International Film Festival at Cannes, France, whose members honor the achievements of their peers.

The tradition continues today . . . saluting the "stars" . . . those before the camera and lights, and those behind them.

Dealers' Association, Inc.

July 5 - 7, 1985

Los Angeles, California

SCCS No. ASDA 76 (above) was issued at Los Angeles'85 as a "Salute to the 'Stars'." Three stamps are again shown. At left, San Marino (Scott No. 745), the high value of a ten-stamp set issued in 1970, features Disney and a scene from the animated movie, *The Jungle Book*. Again, Disney is not mentioned in the text. In the center is a 1982 French stamp [picturing the *Titanic*?] issued for the 35th International

Film Festival at Cannes (Scott No. 1834), and at right a 1955 French issue honoring the 60th Anniversary of the Invention of Motion Pictures, and featuring two Frenchmen, Auguste Marie (1862-1954) and Louis Jean (1864-1948) Lumière, two brothers who invented and early motion-picture projector and made some pioneer films.

THE WORLD OF ENTERTAINMENT... AN ENDLESS SOURCE OF PLEASURE

A collage of stamps pays tribute to the world of entertainment and captures the breadth of creativity which gives pleasure to all of us. Music from Country Western (J. Rogers) to Jazz (Duke Ellington) and on to Cole Porter, George M. Cohan and Enrico Caruso. Memorable stars of the dance and classic films (W.C. Fields) join the dizzy whirl of the carousel and the wondrous laughter evoked by a clown or characters from the World of Disney.

POSTAGE STAMP MEGA EVENT '93

Issued by the American Stamp
Dealers Association, Inc.
May 5 - 9, 1993
New York, New York

Postage Stamp Mega Event '93 in New York was the location for the issue of the next card (above, SCCS No. ASDA 76) promoting "The World of Entertainment...An Endless Source of Pleasure." The card pictures at least 25 USPS issues all overlaying each other and featuring various entertainers. The 1968 Disney issue is again featured almost dead center and his name is mentioned in the text.

At least one additional card (next page) was issued (SCCS No. ASDA 215) for the Postage Stamp Mega-Event [now with a hyphen] featuring only the 1968 Disney stamp. The text is devoted to Disney and his mouse.

Saluting The World of Disney

A MOUSE that will continue to capture the hearts of children around the globe makes his first appearance in 1928 in the first animated cartoon, *Steamboat Willie*.

Characters, Donald Duck, Pluto, Goofy and others rival Mickey Mouse in worldwide popularity and become the stars of **Walter Elias Disney's** fantasy land in Anaheim California.

This first ever 244-acre amusement park will attract millions of children and adults.

[The first article on this subject was written by SCCS founder, Dr. Curtis Radford, and appeared with illustrations in the Spring 1992 issue (SCJ 12:1, pp. 12-21). I prepared the second part which appeared in the First Quarter 1993 issue (SCJ 13:1, pp. 16-21), and the 1996 card was featured in the First Quarter 1997. In this article, I attempt to update the issues of these cards (actually, all but one (No. 12, below), are printed on thin paper sheets, like bank notes). Ed.]

If you are into intaglio printing, especially by security printers (those who produce securities, money, stamps, etc., for governmental agencies) in a time of diminishing intaglio souvenir card output—the BEP will issue only five cards this year, four of which will have a numismatic theme—then you might wish to consider the beautifully printed items produced by some of the foreign security printers like Bradbury-Wilkinson and Thomas De La Rue, who bought the former firm from its previous parent, the American Bank Note Company, in March 1986. They are generally produced in connection with the meetings of the International Bank Note Society (IBNS).

I illustrate here, both sides (where appropriate) of the most recent sheets, as well as a listing of what has been produced to date, with a reference to where they have previously been illustrated in this journal. Black-and-white does not do justice to these items, seeing is believing! I have decided to include a numbering system, my own, with the listing for reference purposes. I believe it is a complete list, but welcome any additions and/or corrections. (The two first parts of this on-going article included some additional examples of the security printers' craft, but they are not listed in the listing below, which is a listing of overprinted souvenirs for the IBNS shows.) The abbreviations used are BW = Bradbury-Wilkinson, H = Harrisons, and TDL = Thomas De La Rue. SF = Single face (blank reverse side); SF+ = Single face illustrated, reverse with writing; DF = Graphic both sides; and (SCJ No.p.) = similar to that shown but with different text and/or color of images.

Most of these issues are beautifully printed in multiple colors, impossible to reproduce here. The 1997 issue has an inlaid metallic-color, dashed-strip on its face. You will note that it is similar to, but not the same as, the 1996 issue, a part of which was enlarged and featured on the cover of the First Quarter issue of 1997 (SCJ 17:1).

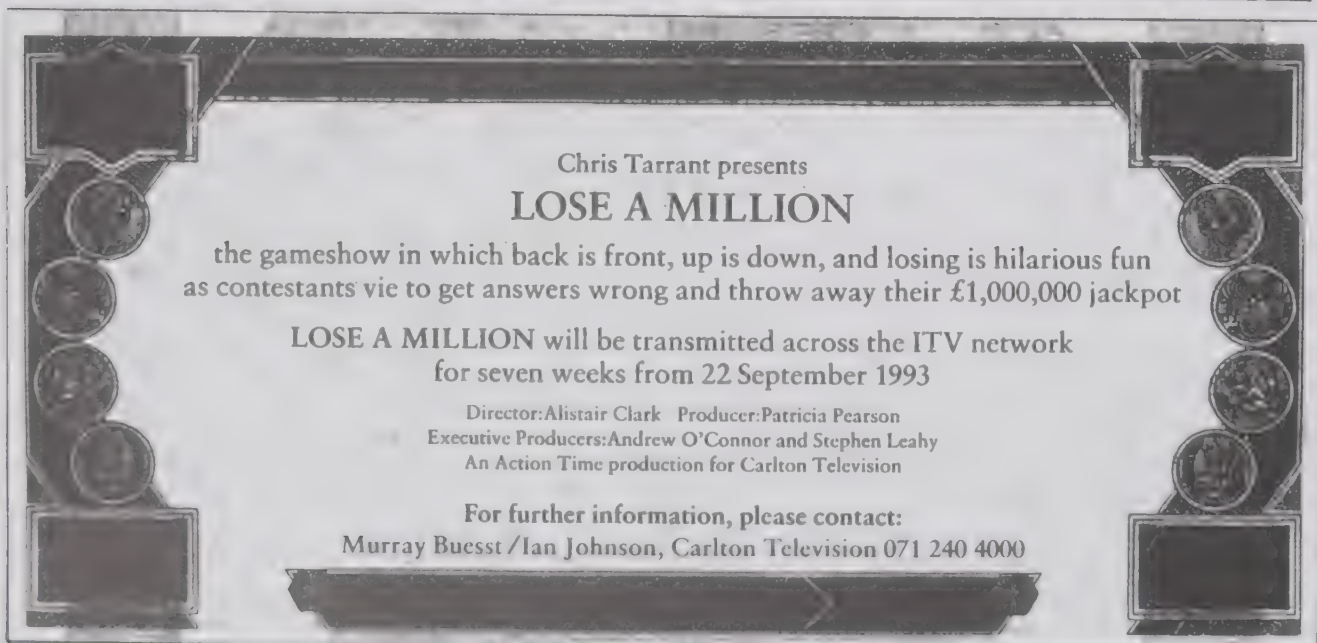

Please Note: I have attempted to add a black-line "frame" around the illustrations to define their extent. They are illustrated full-size. None of them has an outer-edge "frame."

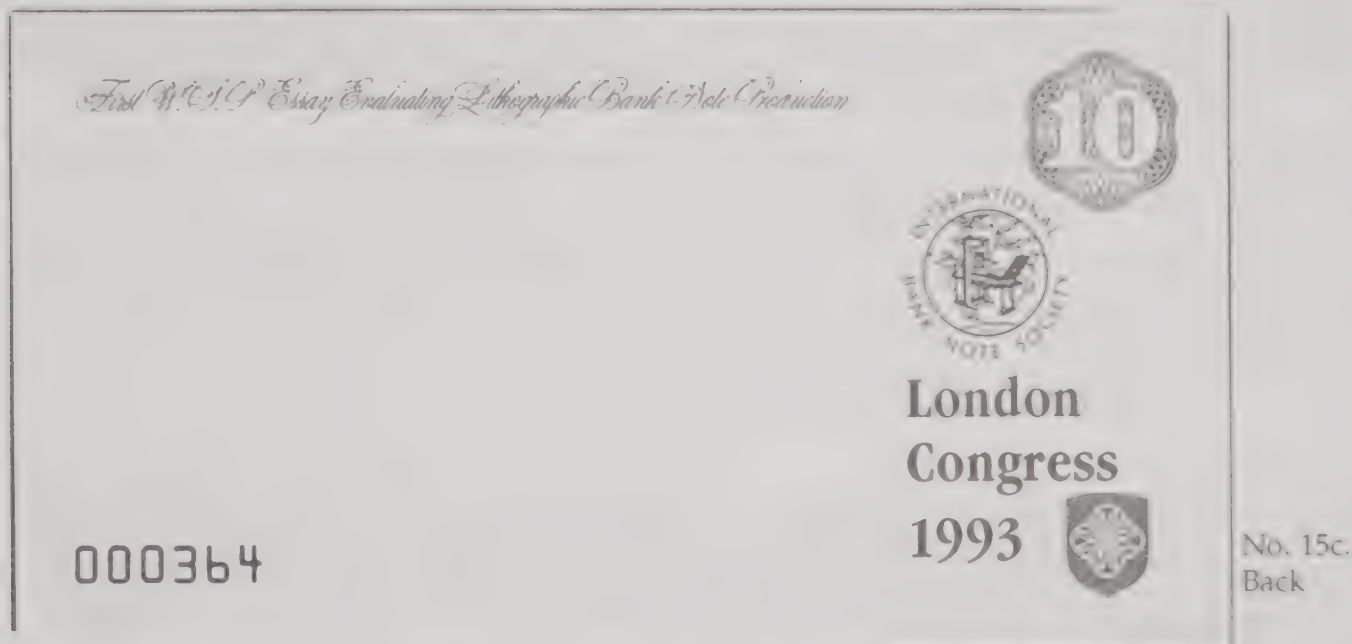

No. 14. Hungarian State Printer. Same design in two different colored notes, one for each day of the show.

No.15b

No.15b
Back

The text (in red which may not read): "Part of the W. L. Holding Group" and the portrait is of the "Founder of the Group J. Aspinall". Some of the fine-line workmanship on these notes, especially those in very light colors may not reproduce effectively in black and white. As indicated earlier, the beauty of these issues must be seen "in-the-flesh."

DUES FOR 1999 ARE NOW DUE if "1998" appears above your name on the address label.

A dues payment envelope was included with the last issue. Please note that as indicated in that issue, the dues structure has been changed. Please refer to that issue, or the back cover of this issue for the dues rates. If you have not already done so, please renew today. Checks (U. S. funds) to "S. C. C. S" should be sent to:

Dana A. Marr, SCCS Secretary, P. O. Box 4155, Tulsa, OK 74159-0155

No. 16. Christopher Columbus is featured on this simulated bank note. His portrait, ship and an elaborate background design in several colors appear on the face (above).

The reverse (below) has an image "Columbus embarks at Palos, 3rd AUG. 1492". At left appears a sand-timer. Again the background lines are in several beautiful colors.

The copyright date lower left on this side indicates a 1992 date.

No. 19. The face of this note (above), bears a portrait of Thomas DeLa Rue with his office building in the background. It is similar to that of the 1996 issue (No. 18), but has been totally reorganized, e.g., the "value" has been moved to the right and the IBNS notation has been moved here from the back. In addition, a metallic-colored dashed-line has been added vertically. The rendition of the TDL offices in the background is much lighter and the "Thomas De La Rue" has been revised.

Similarly, the image of a structure (?) on the reverse (below) has been moved to the right and changed in color. The rest of the scroll work and numbering has been revised. Both are very handsome.

No. 20. The latest issue, for "The World Paper Money Fair" incorporates the idea of "Millennium" with a "value" of the note as "2000." One side (above) features an image of Sir Christopher Wren (1632-1723), architect of St. Paul's Cathedral in London (and many other buildings) and is similar to the design shown earlier (SCJ 13:1, p. 21).

The other side (below) features a view of the "futuristic" Lloyds (Insurance) building, also in London, designed (1978-1986) by the architect, Richard Rogers (b. 1933). A twenty-year old design that was, and perhaps still is, ahead of its time. The shape of things to come?

Note: No. 17 will appear in a future issue of this journal, when I acquire a copy!

Every once in a while, I get a chance to review some of the items in my collection. Often, in looking at an image, I wonder what the source was, the location, the subject matter, etc. Most recently, while looking through my copy of the 1993 IPPDS&EUNA Centennial Celebration book (SCCS?). On one of the pages (vignette below) was a plate prepared by the Philadelphia Plate Printers and Support Group Union Local 1. Living in Philadelphia, I first thought the view was of the old Lit Brothers building looking west on Market Street. I now believe that the view is actually in Chicago—looking north on State Street. I include here (right) a reduced copy of a photo (pl. 48) from Larry A. Viskochil, *Chicago at the Turn of the Century in Photographs* (New York: Dover, 1984). Electrically operated trolleys were common in both cities at the time. Interesting use of an available plate or an oversight on the part of the printer?

MAIL BID AUCTION: FOURTH QUARTER 1998 Ken Barr (407)

Yet another oversized auction this time, with over four hundred lots available for sale. There are nice long runs of mint BEP and ABNCo. cards offered, along with a smattering of show-cancelled cards and the other "usual suspects". Two BEP "hankies" and a PACIFIC 97 handpulled proof (B 218), for which there was no corresponding regular-issue proof card, should hopefully prove to be of interest to one or more members.

The Second Quarter 1998 sale was very successful, with about \$6,400 in sales and a \$1,000 net return to the Society treasury. The Third Quarter 1998 auction (closing soon, as of this writing) looks to be fairly slow, with only around thirty bid sheets received, and a lower-than-normal number of lots being bid on

Consignments remain "on hold" due to a large amount of material already on hand. Scarce/rare single items will continue to be accepted, but please do not submit large collections or bulk lots at this time. Please write for a copy of the Consignment Terms first if you are interested in participating in the auction as a seller.

AUCTION BIDDING RULES

1. MAIL BID CLOSING DATE: BIDS MUST BE RECEIVED BY THE AUCTION MANAGER NO LATER THAN FEBRUARY 20, 1999.

2. Send all bids and auction correspondence to the Auction Manager: Ken Barr, P. O. Box 32541, San Jose, CA 95152. Telephone inquiries may be made until 10:00 PM Pacific time at 408-272-3247. E-mail bids may be sent to "bids@kenbarr.com".

3. Bid by lot number only. Multiple item lots will not be broken. The earliest postmark will decide tie bids. Duplicate lots may be available; feel free to indicate if you want more than one copy of any lot(s).

4. Bid processing will be done manually, so special instructions can be given. "OR" bids ("bid \$10 on lot 101 OR 102, one lot only") are acceptable, as are "maximum expenditure" limits ("please limit total winning bids to \$100 maximum"). Feel free to bid on any lots desired with the security that your winnings will be limited to the amount specified.

5. All items will be sold to the highest bidder. Bid reductions will generally not be made unless noted on special high-value lots.

6. Please observe a minimum bid of \$5 per lot. Some lots have higher minimums, denoted as MB \$xx in the lot description. Estimates (EV \$xx) are for information only, and have either been provided by the consignor, the current SCCS catalog, or the Auction Manager.

7. Lots will be shipped via insured U. S. Mail unless otherwise requested. Postage and insurance charges will be included in the bidder's invoice.

8. Successful bidders are to remit payment in full in U. S. funds within five days of receipt of their invoice. Late payments may disqualify the bidder from participation in future auctions.

9. Returns are acceptable within ten days of receipt of shipment. Please specify reason for return (damage, mis-attribution, etc.). Mistakes on bidder's part are not sufficient reason for return.

10. The Auction Manager reserves the right to withdraw any lot and to reject unrealistic bids.

11. A "Prices Realized" list will be available shortly after the auction. All bidders and consignors will receive copies. Others may obtain one by sending a self-addressed stamped envelope to the Auction Manager.

12. Members wishing consignment information should write to the Auction Manager for details.

Many other private cards were consigned, but require long descriptions in order to adequately describe them. Rather than take up an inordinate amount of space in the *Journal* to list these, I'm intending to have a separate auction of these cards next spring, with a catalog mailed only to those who wish to participate. Please let me know via mail, phone or e-mail if you wish to receive this special separate auction of private souvenir cards.

PLEASE include your USPS-compliant mailing address when sending in any e-mail bids! As much as I'd like to e-mail the packages to the winning bidders, they must be physically mailed via the patriotic, loyal, hard-working, dedicated folks at the USPS, at least until "Star Trek"-like transporter technology is perfected...

E-mail bids may be sent to: bids@kenbarr.com

END OF AUCTION

DEADLINE FOR RECEIPT OF BIDS IS
20 FEBRUARY 1999.
